The Story Behind the Praxis Project's Working Principles for Health Justice and Racial Equity

ACT WITH CARE

INCLUSIVITY

Working Principles for Health Justice & Racial Equity

COMMITMENT TO TRANSFORMATION

SUSTAINABLE SOLUTIONS

AUTHENTIC COMMUNITY COLLABORATION

Act with Care

Proceed thoughtfully.

Be deliberate.

Seek to understand.

Build trusting relationships.

Lead with love.

Inclusivity

Those most affected by inequities are in the best position to define the problem, design appropriate solutions, and define success.

Authentic Community Collaboration

Authentic community collaboration builds dignity and allows for all perspectives to be considered and integrated; solutions should be co-designed, co-implemented, and co-measured/evaluated.

Sustainable Solutions

Solutions should be community-driven, build community capacity and resident knowledge, deepen relationships, increase programmatic capacity, build lasting infrastructure, and ensure respect for all.

Commitment to Transformation

All participants can learn from one another, reflect on their own structures and practices, and find areas to continuously improve organizational culture and practices.

Assessing & Improving Our Work

THE PRAXIS PROJECT

WORKING PRINCIPLES FOR HEALTH JUSTICE & RACIAL EQUITY ORGANIZATIONAL SELF-ASSESSMENT

PURPOSE

The purpose of this organizational assessment is for organizations or programs to reflect on the ways in which they embody health justice and racial equity in practice, and identify opportunities for growth and improvement. Praxis does not believe that health justice and racial equity can simply be calculated; rather, this assessment is simply a guide to facilitate reflection and team discussions, and support actions that organizations can take to improve authentic community partnerships.
